UNIVERSITY OF GEOLOGICAL SCIENCES

Tashkent, unigeo.uz/

Government Organizations

- Governmental Organizations

IT, System Integration, Internet

- Software Development

Backend developer

Designed and implemented RESTful APIs for the official university website, ensuring high performance, security, and scalability (Django, DRF, PostgreSQL): <https://unigeo.uz>

Built an integrated academic ranking platform with the HEMIS system to automatically identify and rank the top 100 students based on academic performance.

Developed RESTful APIs for the "Top Talaba" platform, enabling reliable data exchange and seamless system interoperability: <https://toptalaba.unigeo.uz>

Created a Telegram appeal bot using Aiogram to streamline user communication and automate appeal submissions: <https://t.me/gfumurojaatbot>

Fully developed an educational grant redistribution platform using Django Templates, implementing OAuth2 authentication and HEMIS integration: <https://grand.unigeo.uz>

Developed an online appeal submission and management system using Django Templates, improving request processing efficiency and transparency: <https://murojaat.unigeo.uz>

August 2025 —
November 2025
4 months

Optimized backend architecture through code refactoring and database query optimization, improving system stability and maintainability.

Institute for Advanced Training of Mining and Geology Specialists

malakageo.uz/

Government Organizations

- Governmental Organizations

Backend Developer

Contributed to the development of the MalakaGeo online testing and certification platform:
<https://malakageo.uz>

Implemented OneID authentication for secure user access.

Developed QR code-based certificate verification functionality.

Implemented certificate generation in Uzbek and English.

Built Excel-based analytical reports grouped by courses and organizations.

Developed a fully multilingual system supporting three languages across the platform.

Further information

About me

Backend Developer with 2+ years of experience in Python-based backend development. Specialized in Django, Django REST Framework, and FastAPI.

Experienced in building scalable REST APIs, integrating government systems (HEMIS, OneID), and developing production-ready platforms using PostgreSQL, Docker, Redis, and Nginx.

Strong understanding of Clean Architecture, SOLID principles, and system design.
